

Email to the Colorado Senate Judiciary Committee on Monday, March 24, 2014

On Tuesday, March, 25 at 2pm you will be reviewing SB-133, the licensing bill for Colorado private investigators, I am asking you to vote no for the following reasons:

1-The failed attempt to regulate the industry has a failed and very expensive three year track record, currently a \$40,000.00 deficit is part of the program, lack of participation on behalf of those bringing forward the program and it goes on and on.

2-As a small business owner this is just another tax, qualifications will be worked out with the director of the program AFTER it is passed-you gotta be kidding me. I don't even know if I qualify.

3-What happened to the level one and two categories that were in the first bill? At least than I know where I stood and if not qualified gave me and others to work towards.

4-With all the really important issues facing Colorado taxpayers, you guys are spending time and efforts on special interest group legislation with a failed track record and a \$40,000.00 deficit. I don't get it

Thanks in advance
