Subject: sb-133-please vote no

Good day, on behalf of the entire membership of the Colorado Society of Colorado private Investigator (CSPI) we respectfully ask the Senate Finance Committee vote no on **SB-133, scheduled for hearing tomorrow.**

This bill has become much more complicated after amendments were made several weeks ago, without the knowledge or counsel of three big pi associations with a combined total of well over 200 pi's. Furthermore we are waiting for an interpretation of those amendments from the bill sponsor on how it will affect our associations. No response as to date.

The \$40,000.00 deficit is an indisputable fact that must be dealt head on. Please do not put the Colorado taxpayer at any additional risk with this bill. Keep in mind, history shows very little issues with Colorado private investigators.

Government has intruded enough in the operation of small business.

PLEASE VOTE NO ON SB-133

Rick Johnson, President, CSPI
